DETAILS &

MOTOR & AUTOMATION

somfy_®

Internationally renowned Somfy motors from France are used to operate all of our products.

Guaranteed for 5 years and using RTS technology, the motors can be operated at the simple touch of a button.

Wind Sensor

FABRIC

Palmiye presents a broad range of fabrics with a wide selection of colours, patterns and elegant designs imported from the USA, France, Spain and Italy, and all with 5 years guaranty against fading and mould.

Ferrari Soltis

Izo Pro

FS Flexy

FS Flexy

FS Flexy fabric, which is used in all Four Seasons products, is a light weight PVC-based material. Consisting of 3 layers, it is highly resistant in many ways including being fully flame retardant and water resistant as well as filtering UV light. Exclusively produced for Palmiye, it is easy to clean and is available in white, ivory and grey.

Izo Pro

Patented by Palmiye, Izo Pro is a unique example of what Nano technology can offer. Its insulating functions mean that it ensures a room is kept cool in the summer whilst making it easy to heat during the winter months. As well as being considered soundproof it plays a big part in energy saving and Green technologies.

Ferrari Soltis

Specially designed for Palmiye in such a way that it is see-through despite still blocking the sun and 95% of UV rays, this fabric has a natural citronella scent and acts as a subtle insect repellent that gently perfumes the area. same time.

TECHNICAL DETAILS

Each of our products is hand crafted and in itself unique. From the canvas to the construction material, you can completely customize your product. Distinguished by their design, durability and state-of-the-art detailing, all of our products are certified by TUV and ISO.

The innovation spirit of Palmiye spurs us on to constantly reach new horizons.

03 GEOMETRIC CROSS SECTION

front gutter for perfect water drainage.

This prevents rainwater entering the enclosed area, and leads it directly to the

01 DOUBLE ANTI-AIR SYSTEM This system prevents the wind entering

between the ceiling cover, rails and gutter,

and creates an airtight space into which

the wind cannot enter.

02 WATERBLOCK

With its geometric design, the specially engineered inner section gives maximum strength and wind resistance to the aluminium rail profile.

ALUMINIUM RAIL

- Wood Effect

HORIZONTAL BEAMS

The front and side beam are on the same horizontal level, giving a continuous line throughout the product, ensuring a smooth relaxing overall look, which is a delight to the eye.

SPOT LIGHTS

Depending on whether you want strong practical lighting, or an atmospheric dimmed ambience, choose from 1 or 3 Watt LED lighting options. Investing in LED technologies is part of Palmiyes contribution to a green environment.

10-WHEEL CAR

Our specially designed 10 wheel car drive, with its one-part stainless steel body, ensures silent, fast and balanced operation of your product.

WALL JOINER FINISH

Typical of Palmiye, every last detail is of upmost importance. With these attractive caps, the joint between the wall and the product is covered to ensure the perfect fit and brings together the final look.

01 RAIN GUTTER

The gutter with its height adjustment feature, provides the anti-air system, in different positions to ensure a perfect fit, according to the inclination of your product.

02 SEPERATE FRONT BEAM

The separated front beam carries all the weight of the roof without putting any pressure on the gutter. Additionally it is also responsible for carrying awnings and glass systems.

03 VERTICAL BLIND

Horizontal sun rays can be reduced with a vertical blind. It is a full cassette awning and the Ferrari Soltis fabric, provides shade without interrupting the view.

04 GLASS SYSTEMS

Different glass systems can be installed directly onto the front beam.

IDS

Specifically designed to add a nice aesthetic touch as well as being highly functional, this Integrated Drainage System (IDS) ensures that all water is smoothly drained inside the front pillar.

FRONT PILLAR

Inside our cleverly engineered front pillar, all the installation details are hidden, including all screw points, ensuring that no extra connection part is needed.

FRONT PILLAR BASE

This stainless steel base hides all the floor installations inside, drains the water to the outside and gives an exlcusive finish to your product.

PROFILE ENDING CAPS

Give a personal touch to your product by choosing from a rounded or straight ended cap.

Palmiye with an international network and organizational structure, is represented in many countries worldwide.

The values of each different culture and their unique architectural concepts, inspire and are reflected in Palmiye's products.

As an open-minded innovator, Palmiye operates sensitively, tailoring distinctive and incomparable products, where the thoughts and feelings of world famous architects and designers are brought to life.

Palmiye, through its team of professional designers, architects and engineers, shares possible solutions with customers and ensures that they experience the true meaning of the word "unique".

Taking their place within the ever growing 'smartphone' culture, the MyPalmiye App ensures that control of each product is now with the greatest of ease.

By channelling their extensive knowledge and experience with shade systems into retractable products, which can be used all year round, their professionalism has entered a new dimension.
